OBJECTIVE

Highly proficient in front-end development using React.js, with a keen eye for crafting responsive and intuitive user interfaces. Skilled in server-side scripting with Node.js, ensuring seamless communication between the client and server. Proficient in JavaScript, employing modern practices to create dynamic and efficient web applications. Experienced in MySQL, adept at designing and optimizing databases for scalable and efficient data storage.

PROJECTS

Pays. (Point of Sale System)

<https://pos.pays.app/>

- Point-of-Sale (POS) system.
- Robust solution for retail and hospitality businesses.
- Designed to streamline and enhance operational efficiency.
- Designed to use anywhere and everywhere.

Quick Shopee (E-commerce Website)

<https://github.com/AmanSingh0208/QuickShopee/>

- Leveraged React.js, JavaScript, HTML, and Node.js for front-end development.
- Implemented server-side functionality with Node.js, utilizing MySQL as the database.
- Utilized React.js to ensure a quick and responsive user interface, enhancing the overall user experience.
- Successfully designed and implemented a functional E-commerce platform showcasing skills in full-stack development and project management.

EDUCATION

- Bachelor of Science
Jiwaji University
April-2018 – March-2021

I graduated with science. My expertise is in computer science. I got 66% marks in graduation. During my college I also participated in various events and competitions.

- 12th Standard
Siddhartha Modern Higher Secondary School
April-2017 – March-2018

I finished my school in 2018. In high school I scored 65% marks in PCM. During my school time I learn various skills and try some new hobbies.

TECHNICAL SKILLS

- REACT.JS
- NODE.JS
- JAVASCRIPT
- TYPESCRIPT
- KOTLIN
- MYSQL
- CSS
- HTML

LANGAUGES

- ENGLISH
- HINDI

INTERNSHIP

Android Developer

Jan-24 – Present

Internet Soft Private Limited
